

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

AMERICAN EXPOSITOR,

OR

INTELLECTUAL DEFINER.

DESIGNED FOR THE USE OF SCHOOLS

BY

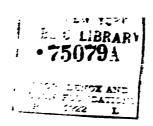

R. CLAGGETT, A. M.,

NEW AND REVISED EDITION

NEW YORK:

CADY & BURGESS, 60 JOHN STREET.

1851.

Entered, according to act of Congress, in the year 1836, By Gould, Kendall & Lincoln, In the Clerk's Office of the District Court of the District of Massachusetts.

OF O. A. & J. CURTIS,
NEW-RNGLAND TYPE AND STEREOTYPE FOUNDRY,
BOSTON.

PREFACE.

THE following work is designed to promote the general adoption of a systematic course of instruction in our own language. Its author, during the time he was engaged in the avocation of teaching, having, at first, adopted the usual method of requiring the pupil to commit to memory the definitions of words in course. soon became convinced that it was a burdensome tax upon the memory, while the nobler powers of the mind were not required to cooperate in the exercise. He therefore adopted, as far as practicable, a plan similar to that which is herein reduced to a systematic form. Nor was he alone in his views in relation to this subject; for, from conversing with several experienced and intelligent teachers, he found that they also had adopted various methods, to the rejection of the old plan. While several branches of education have been so advantageously illustrated and systemstized in text-books for schools, it is somewhat surprising that no work has been prepared to render the study of words in our language subservient to the general discipline of the mind; an object of paramount importance in the study of any elementary branch education. To train the mind to habits of thinking and invention ought to be the leading object of every writer of a school book, and the constant aim of the teacher. That the study of definitions, as herein proposed, may be conducive to this result, is a matter of experimental proof, and that, too, even in cases in which it has been conducted without the aid of any text-book. It is believed that this work is adapted to render the teacher all the aid that is requisite in introducing into his school a regular course of instruction in definitions, by which the minds of his pupils may be successfully disciplined, a ready, free, and correct use of words may be formed, and considerable advancement in the art of composing be acquired.

The following is the general plan of the work.

- 1. The words are arranged in syllabic order, and so far as the classification of the vowel sounds admits, in alphabetical order.
- 2. The vowel sounds of the monosyllables and accented syllables, are indicated by a word, instead of a figure, placed over each class. The sounds of the unaccented syllables are left to the decision of the ear, which will as accurately distinguish them without figures as with them.
- 3. The words are selected and defined with a special view to their being used in classes of various ages and capacities.
- 4. The orthography and pronunciation are in accordance with the best standard authors.

Those pages which are appropriated to illustrations, consist principally of quotations from various authors. They are designed to show more fully, by their connection in sentences or phrases, - the signification of some of those words defined in the three preceding pages. Those words, which are illustrated, are printed in Italic letters, and are to be again defined, and the pupil is not to be allowed to refer back to the defining columns, during the time of recitation. He should read the whole sentence, and when he comes to the Italicised word, he should give it such a definition as its connection with the sentence may require. They are also designed as a review of the preceding lessons, and to give the pupil a sufficient number of models to enable him to form a part or all of the other words, at the option of the teacher, into sentences, in a similar manner. These exercises are to be prepared on the slate or paper, previously to the time of recitation. a little practice, they will become not only easy, but highly interesting to the pupil. But those teachers who may prefer to teach this branch on the plan usually adopted, will find that they can use this work as advantageously as any other, without adopting its peculiar method.

ABBREVIATION 5

e. stands for Adjective.

" Adverb.

" Conjunction.
" Interjection.

" Noun.

AMERICAN EXPOSITOR.

FATE.

AID, v. to help, to assist, to relieve.

ILLUSTRATIONS OF THE PRECEDING PAGES.

ing ails Charles; he has drank too much ale. y in the air. g no heir at his death, his estate reverted to the crown. emakers use awls in making shoes and boots.

Beasts were slain upon the Jewish altars. You must alter my coat to make it &.

A ball hit John on his head and made him band.

He is a base man, who betrays his country. It is two miles from the base to the top of the mountain. Low-toned voices are best for singing bass.

I will break my way through the tangled brake.

A man stood by the store, ready to buy the goods.

Some sellers of oysters and other provisions occupy cellars.

His cousin tried to cozen him.

The flesh of deer is sometimes very dear.

The grass is often covered with derc. Try to pay all that is justly due.

Spring produces flowers, and summer produces flowr.

Francis put on his hat and Frances her bonnet. He marched through the gate in a proud gait.

He who is conscious of guilt cannot be happy.

The room contained a gilt looking-glass.

Great quantities of coal are burnt in grates.

Hail stones are sometimes so large as to break in windows.

He was hale and cheerful at an advanced age.

He shot a hart through the heart.

That religion which consists in the mere observance of rites is but hypocass, although it may seem right in the sight of men.

The wheelwright has a right to write what he pleases.

The wound on his heel was hard to heal.

The rose has a beautiful hue. Hugh will hen the timber.

The inn is in a central place.

Scholars often request their teacher to lessen their lesson.

The main trade of Maine is in lumber.

The horse and the lion wear long manes.

He moans his unhappy fate. Hay is grass monn and dried. The ore was carried o'er the river in a boat propelled by an oar.

A knife is better than a pair of scissors to pare a pear with.

Carpenters plane boards to make them plain.

Skittish horses sometimes sheer out of the road and overturn carriages.

Farmers shear their sheep every year.

Many suffer more from sheer idleness than from misfortune.

A thief attempted to steal a blacksmith's steel.

The farmer cuts off the suckers from his trees to promote their growth.

The heautiful rale of Tempe is between Mount Olympus and Mount Ossa.

APPENDIX.

Prosody teaches the true pronunciation of words, comprising Acces-Prosony teacnes the true pronunciation of words, comprising Accessing the laws of and true pronunciation of words, comprising Access the laws of

Accent is the laying of a peculiar stress of the voice on a certain letter or Accent is the laying of a peculiar stress of the voice on a certain letter or syllable in a word, as in the word compose the accent is on the second syllable. versification.

The quantity of a syllable, is that time which is occupied in pronouncing it.

By emphasis is meant a stronger and fuller sound of voice, by which we By emphasis is meant a shonger and runer sound or voice, by which we design to lay particular stress, distinguish some word or words on which we design to lay particular stress, and to show how they affect the rest of the sentence.

Pauses or rests in speaking and reading, are a total cessation of the voice during a perceptible, and in many cases, a measurable space of time.

Tones consist in the modulation of the voice, and in the variations of sound which we employ in the expression of our sentiments.

Versification is the arrangement of a certain number and variety of syll bles, according to certain laws.

Rhyme is the correspondence of the last sound of one verse, to the last sound or syllable of another; as

"In reason's ear they all rejoice,
And utter forth a glorious voice."

PUNCTUATION.

Punctuation is the act or art of dividing a written composition into sen tences, or parts of sentences, by points or stops, for the purpose of marking the different pauses, which the sense and an accurate pronunciation require.

THE COMMA.

The comma (,) requires the shortest pause.

The semicolon (;) requires a pause double that of the comma.

The colon (:) requires a pause double that of the semicolon.

The period (.) requires a pause double that of the colon.

VARIOUS CHARACTERS USED IN COMPOSITION.

The note of Interrogation, (?) used when a question is asked; as, Has he arrived?

The note of Admiration or Exclamation, (!) used to express admiration or surprise; as, What a spectacle!

The Apostrophe, (') used when a letter or syllable is omitted, and in the possessive case of the noun; as, 'Tis, for it is. A man's property.

The (A) used when a word or number of words are omitted through mishis house.

A Hyphen, which is thus marked (•) as, Lap-dog, to-morrow.

A Section, marked thus (δ) is the division of a discourse or chapter into less parts or portions.

A Paragraph (¶) denotes the beginning of a new subject, or a sentence not connected with the foregoing. This character is chiefly used in the Old and New Testaments.

A Quotation ("".) Two inverted commas are generally placed at the beginning of a phrase or a passage which is quoted from the speaker or

author in his own words, and two commas in their direct position are placed at the conclusion; as,
"The proper study of mankind is man."

Crotchets or Brackets [] () serve to enclose a word or a sentence for the purpose of explanation.

An Index or Hand () points to some remarkable passage.

A Brace is used in poetry at the end of three lines which have the same rhyme.

An Asterisk or Star (*) points to some note in the margin.

An Ellipsis (—) is used when some letters or words are omitted; as,

k-g for king.

An Obelisk, (†) and several other characters, are used to point to some note or reference in the margin, or bottom of the page.

CAPITALS.

The following words should begin with capitals.

1st. The first word of every book, chapter, letter, paragraph, &c.

2d. The first word after a period, and frequently after a colon, and notes of interrogation and exclamation.

3d. The names of the Deity; as, God, Jehovah, the Supreme Leing, &c.
